

PUBLIC NOTICE

AUTOMATION OF ISSUANCE OF ORDINARY CERTIFICATE OF ORIGIN

“Ease of Doing Business for Exporters”

This is to inform the general public and specifically all exporters that, Kenya National Chamber of Commerce and Industry (KNCCI) with the support of TradeMark East Africa (TMEA) has developed an online platform that will facilitate electronic issuance of ordinary Certificates of Origin (CoO). The system was officially launched on 15th April 2016 and will replace the manual issuance process of CoO in 3 months' time after the parallel run exercise

Exporters who require CoO will have to register at portal.kenyachamber.or.ke to apply. There will be no physical signing and stamping of CoO and instead, the system will use a unique serial number and a Quick Response (QR) code for authentication.

This initiative is geared towards enhancing the trade environment for Kenyan exporters and the trade community at large, through reduction in the time taken, and costs incurred in processing ordinary certificates of origin. Through embracing Information and Communication Technology (ICT) for trade, exporters will be able to apply and acquire this key trade document from the comfort of their locations.

For more information contact your KNCCI county office / Headquarters or visit portal.kenyachamber.or.ke
