

May Corporate Travel News

A host of exciting things will be happening in 2017 and beyond as we roll out new initiatives to improve your travel experience both on the ground and in the air...

Nairobi Airport Lounge

British Airways' First, Club World and eligible Executive Club customers departing from Jomo Kenyatta International Airport can now enjoy the comfort of the Turkish Airlines lounge, located by Gate 4A. Facilities include a self-service buffet with hot and cold dishes, complimentary soft drinks and liquor, Wi-Fi, local and international newspapers, kids' corner, showers and a quiet zone.

A More Premium Club World

We're completely transforming your experience in Club World, our longhaul business cabin. Starting in July, new linen, bigger pillows and softer duvets will offer our Club world customers a better night's sleep on their flat bed seat. And a new restaurant-style dining service will start in September, featuring beautiful new table settings and display trolleys for you to select freshly prepared dishes. These changes will be introduced on flights between London and New York before being rolled out to the rest of the British Airways network.

An Even Better Executive Club

Introducing a great new benefit for our Executive Club frequent flyers: if you need to take maternity, paternity or adoption leave and won't be flying for a

while, you can now apply to place your account on hold for a year and protect your hard-earned Bronze, Silver or Gold status. You'll need to send us a doctor's letter, a birth certificate or documentation relating to the adoption or paternity leave and email them to baby@ba.com, along with your Executive Club membership name and number.

And our special offers go on...

Our advance purchase fares continue to offer you the best value for money to a huge range of cities from Nairobi. Book three months early in both our economy and premium economy cabins to enjoy our biggest ever discounts. Fares include all taxes.
